ORDERING

Gilet Guitars are individually built instruments.. The style, choice of materials, construction and custom options will be based on your specifications. if you are interested in ordering a guitar please contact Gerard who will take you through the options to design your guitar based on his 40 year experience designing and building guitars.

Gerard can be contacted on +61 (0)412 589 124 but if you prefer you can also leave a message for him via the website <https://giletguitars.com.au/#GGContact>

STYLES

BMG

The Blue Mountains Guitar or BMG is a custom Gilet shape designed to incorporate modern falcate bracing systems. It is loud, punchy and dynamic instrument, suitable for modern finger-style.

MG

The Medium Gilet or MG features lovely round mids and full bass which makes the MG a great rhythm guitar. The design is based on a Gibson J185.

G45

The is the Gilet interpretation of the Gibson J45. It is renewed as the best guitar for vocal accompaniment and popular with singer songwriters.

O

This is the smallest size guitar we make. It is modelled on a style popular in the 1920's with blues and ragtime players. These guitars are noted for their excellent treble response and volume

O-O

This model is characterised by string mid-range response giving a rich warm tone. This style is very popular with folk style performers.

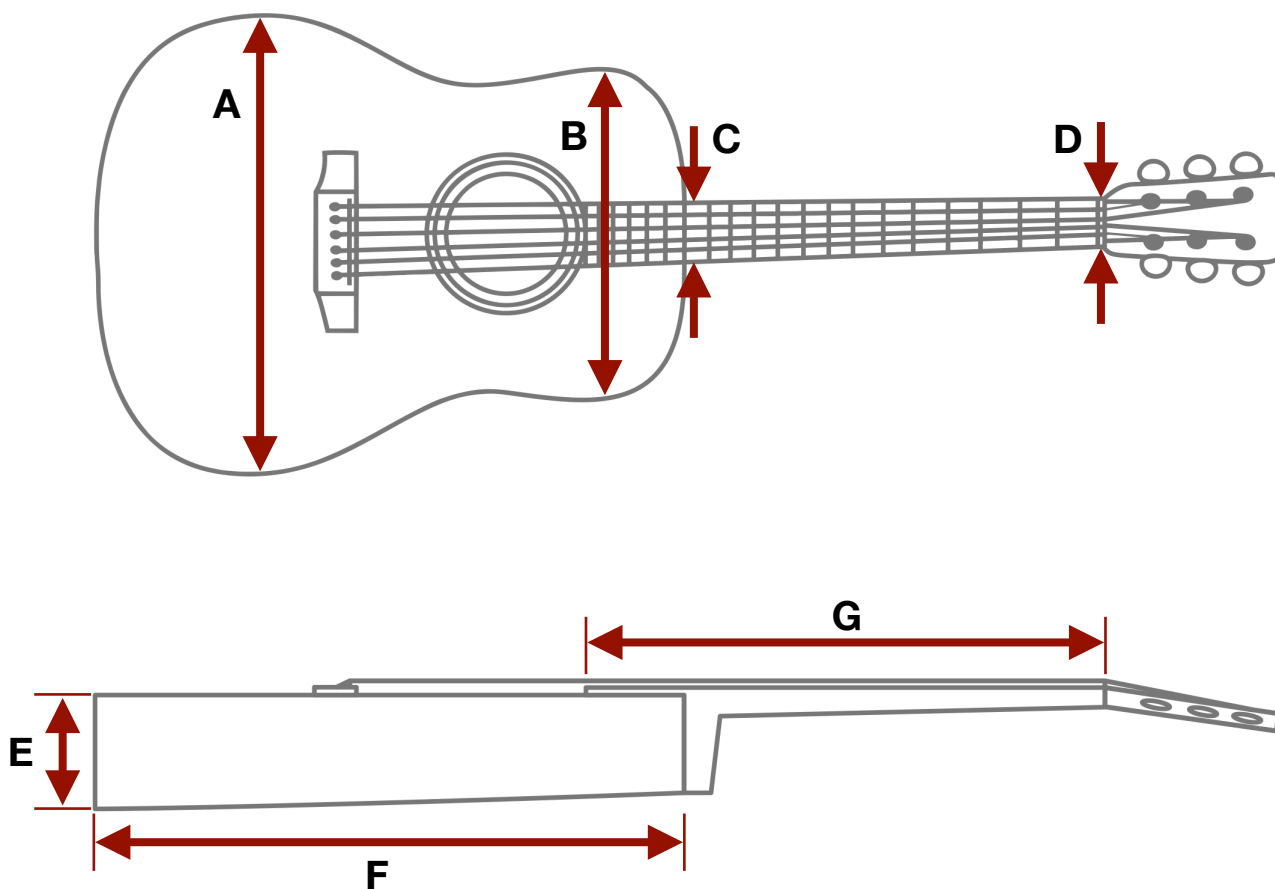

O-O-O

Our most popular design. This model provides the volume whilst maintaining the tonal balance of a smaller guitar. the best all round guitar for finger style and light flat picking

Concert Classical

These guitars feature low mass soundboards which provide exceptional volume. Great care is taken to ensure the response is even across the entire register.

STANDARD DIMENSIONS

cm	A Lower Bout	B Upper Bout	C Lower Neck	D Upper Neck	E Body Depth	F Body Length	G Scale Length
BMG	39.4	28.6	5.7	4.4	11.1	48.6	64.4
